Dear Randal,

The Florida Chapter of The Wildlife Society (FLTWS) was very pleased with the decision by the commissioners of the Florida Fish and Wildlife Conservation Commission to close the borders of our state to importation of most cervids. Thank you so much for the effort and enthusiasm you put into making that outcome a reality. Your willingness to share your concerns and be the point of contact certainly assisted the various stakeholder groups to focus our efforts and present a united front. The information that you provided was accurate and science-based, both very important aspects for FLTWS when we lend our support to any wildlife issue. Congratulations for a job well done, and FLTWS looks forward to working with you on future projects that serve the natural resources of Florida and beyond.

Sincerely,
